Sentinel Protection and Licensing

Sentinel HASP, formerly Aladdin HASP SRM, is the industry's first and only software licensing and security solution to enable the use of either software- or hardware-based protection keys to enforce software protection and licensing. [Read more...](#)

Sentinel RMS is a robust license enablement and enforcement solution providing software and technology vendors with control and visibility into how their applications are deployed and used. Focused on scalable and flexible license management, RMS is ideal for applications deployed in medium to large scale enterprise environments. [Read more...](#)
